MESSAGE FROM The Vice Chancellor

Established by the Government of Uttarakhand by an Act of State Legislature in 2005 with a mandate to provide quality education and to emerge as a Centre for Excellence in higher education, The Doon University is constantly striving to establish new landmarks with the support of its academic and non-teaching staff members. Recognized under Section 12(B) of UGC Act and NAAC accredited, the Doon University is now entering into its fourteenth year.

At present, the University is offering degree programmes in School of Environment and Natural Resources (SENR), School of Physical Sciences (SOPS), School of Media & Communication Studies, School of Languages (SOL), School of Management (SOM), School of Social Sciences (SOSS), School of Technology (SOT) and School of Design (SOD). Among these, the SOPS has four departments, viz., Dept. of Physics, Dept. of Chemistry, Dept. of Mathematics and Dept. of Computer Science within its ambit.

At Doctoral level, the Ph.D. Degree programmes are being offered in School of Environment and Natural Resources (SENR), School of Physical Sciences (SOPS), School of Management (SOM) and School of Mass Communication (SOC). At Doon University, we take pride in having very modern physical and research infrastructure which has gradually but steadily improved over past few years. The University has well equipped classrooms, state of art laboratories and computer facilities.

Our sports stadium has facilities for basketball, tennis, volleyball, football and cricket. A multipurpose indoor hall, especially for badminton and table tennis, is also available from this year to the University students and faculty. In addition, well-equipped gyms are also available in hostels for both girls and boys. The University has plans to add one more girls hostel with generous support from State Government.

The University has very dynamic and capable faculty with excellent academic profile having years of research experiences from India and abroad. The university is constantly striving to induct new faculties in various Schools and has successfully managed to attract excellent talents in recruiting new faculties across all Schools and Departments. The faculty members have an impressive record of research publications and sponsored research projects and consultancies.

With best wishes

(Dr. C.S. Nautiyal)

2. About Doon University

The idea of Doon University draws its elements from huge deficit that the state of Uttarakhand has been experiencing in the area of excellence in higher education. The Doon University Bill, 2005 (Uttaranchal Adhiniyam Sankhaya 18 of 2005) was passed by the Uttarakhand Legislative Assembly and by the Governor on April 23, 2005. It was published in the Uttarakhand Gazette on April 26, 2005. On 9th May 2009 its Statutes were approved and the University started its first academic session on 6th August 2009. The spirit of the Act is to create an autonomous and accountable institution of higher learning. Accordingly, the University intends to impart socially and economically relevant education. It also aims to provide lead in frontier areas of research and methods of pedagogy. Indeed, the mandate is huge and challenging.

2.1 University Vision

In accordance with the provision in Section 5(1) of the Act, Doon University shall become a Centre of Excellence in the chosen areas of studies, and shall carry out research for the advancement and dissemination of knowledge. Such an effort shall be benchmarked with the best in the country and globally. The Doon University will be known for:

- Student and learning-to-learn centered pedagogy supported by a community of eminent research scholars.
- Leadership through collaborative educational ventures &
- Value-based learning

2.2 University Mission:

The University shall work to achieve the following

- State-of-the-art educational programmes in cutting-edge disciplines of regional, national and international relevance
- Conduct high quality and multidisciplinary research to expand the boundaries of the knowledge in the chosen areas and

- Provide a challenging and conducive environment for scholars and researchers to engage in pursuit of excellence

2.3 Character of the University

In consonance with the spirit of Doon University Act, the character of the University can be as summarized below:

- Centre of excellence in higher studies, sensitive to the requirements of society and having twinning arrangements with leading universities/institutions to offer joint programmes in teaching and research.
- Students to be drawn from across the country and abroad, especially from the developing countries besides from Uttarakhand.
- Selection of the students to various academic programmes to be made strictly on the basis of merit and aptitude.
- Recruitment of high-quality faculty from across the country.

2.4 Pedagogy at Doon University:

The pedagogical approach is premised on basic recognition that pedagogical choice for the twenty-first century must reflect the changing educational, technological, professional, societal needs and aspirations. This recognition and its acceptance in turn requires/demands a shift from traditional forms of only classroom based and teacher-centered instructions to more holistic approach to acquiring knowledge and skills appropriate for the times which is achieved through four key elements of the pedagogical orientation namely: Active learning, Learning beyond the classroom, Education for profession and Career skills. This has been achieved through the following:

- Advisor for each student for close student-teacher interaction
- Tutorials-learning beyond classrooms
- Continuous evaluation through seasonal seminars, projects, assignments, tests/quizzes

projects, assignments, tests/quizzes

FieldStudy/Summer Internship for third Semester students for first hand professional experience and hands-on training.

Dissertation in fourth Semester for enhancing analytical capacity and research aptitude in students

- Field Study/Summer Internship for third Semester students for first hand professional experience and hands-on training.
- Dissertation in fourth Semester for enhancing analytical capacity and research aptitude in students.

4.14. Students' Achievements:

The Doon University students are doing increasingly well in the field of academics and have shown their potential at national as well as at international level. A number of students have been directly placed in the industry/private sectors through the placement cell of Doon University. The students have also been contributing in the “research publications” which are shown under different “academic schools”. A few students have also bagged national research fellowships as shown above

4.15. Academic Collaborations

In order to promote academic and research collaboration with the national and international institutions in the form of student faculty exchange and joint research, the University has signed memorandum of understanding (MOU) with the following Academic and Research Organizations:

1. Wadia Institute of Himalayan Geology, Dehradun (WIHG)
2. Indian Institute of Petroleum, Dehradun (IIP)
3. Indian Institute of Remote Sensing IIRS, Dehradun
4. German Centre, SoL, Doon University with University of Osnabruck
5. Spanish Centre, SoL, Doon University with University of Salamance and University of Sevilla and Instituto Cervantes, New Delhi (in the pipeline).
6. Wild Life Insitute of India (In the pipeline)
7. GB Pant National Institute of Himalayan Environment & Sustainable Development (Pipeline)

5. Fellowship And Scholarship

Doon University is committed to award scholarships/financial support to the poor and needy students. The University considers fee waive (fully or partially) for meritorious students belonging to weaker section of the Society up to a maximum of 10% of total students. The fellowships awarded by the University are as follows:

6. Academic Schools

6.1 School of Environment & Natural Resources (SENR)

Vision: The School of Environment and Natural Resources works to integrate and sustain the independent values of healthy environment, a sustainable economy, and livable communities. SENR is dedicated to generating and disseminating knowledge for the stewardship of natural managed environments and the sustainable use of their product and services through teaching, research and outreach. School of Environment and Natural Resources aims to provide world class internationally recognized knowledge and leadership for environmental and natural resources issues. The overarching vision of the school is to be a leader in interdisciplinary, innovative inquiry that generates highly-relevant knowledge, in developing integrative science based solutions to contemporary environmental problems, in educating tomorrow's scientists and leaders, and in promoting science and education that contributes to a vibrant green economy and a sustainable environment.

Mission: The School of Environment and Natural Resources aims at meeting the needs of the society by providing advance training to students in environment and natural resource management through a structured curriculum with integrated multidisciplinary approach involving latest advances in the fields of physical, chemical and biological components of the environment. Wherever needed emphasis is given to geo-morphological attributes, and socio-ecological and socio-cultural aspects of mountain ecosystem highlighting issues and problems illustrated with Case Studies.

6.2 School of Media & Communication Studies

Vision: The communication and media sector has grown several folds and is projected to continue growing in the coming decades. On the one hand, the industry has witnessed a virtual explosion in the process of creation and consumption of information and communication output and, on the other, an upsurge in the demand for intellectual and professional skills to face the challenges and the opportunities brought about by the transformative forces of communication revolution. The School of Media and Communication Studies at Doon University is a response to these challenges by providing a flexible academic programme to study the emerging disciplines and train students for the many exciting professional careers emerging with the convergence of technologies and communication processes.

Mission: The School of Media and Communication Studies will strive to produce responsible and socially accountable communication practitioners who possess both theoretical and practical knowledge relevant to the field of Media and Communication so as to serve the society at different levels.

The School offers academic programmes in media and communication which includes:-Journalism, Social and Development Communication, Advertising, Public Relations, Photography, Radio Television, Films, Animation, Graphic design, Multi-media, Media management and research. The programme curriculum is wide-ranging and interdisciplinary and carefully balances theoretical and practical information. The curriculum familiarizes students with concepts both in theory and in practice, introduce them to various streams of communication discipline, provide hands-on experience on all relevant skill areas and allow students to specialize in an area for entry-level jobs in communication and media sector. As part of its professional emphasis, the programme provides an opportunity to students to gain practical work experience through its internship placements in relevant organization, interact with leading professionals of the media and communication sector and assist students in finding suitable placements and self-employment opportunities.

6.4.3 Department of German Studies, School of Languages

Vision: Teaching of German in Schools and Universities in India has already completed hundred years. At present German studies is being carried out at several universities in India which is catering not only to research initiatives by the German as well as Indian governments, but also to the requirements of several German multinationals which have their strong and effective presence in India. Besides, Germany and India share a lot of linguistic and philosophical affinities. This particular background and a rare combination of so many factors pave the path for the learning of German language and study of German linguistics, literature and philosophy at Doon University. Students pursuing this field of studies get a lot of opportunities to work at multinational corporations as well as academic institutions. Our academic program thus prepares students on the one hand for pursuing higher studies and on the other hand offers a blend of academic, research as well as employable skills.

Mission: Department of German Studies through its outreach and teaching activities wants to create alumni of socially, culturally, academically and philosophically aware, capable and conscious professionals who would not

only bring good name to their alma mater but also set examples of success and satisfaction in their respective sphere of life.

6.4.4 Department of Chinese Studies, School of Languages

Vision

The 21st century has been called as the “Asian Century” placing a lot of importance on the two Asian giants China and India. The fast growth of Chinese economy has put China in a very strong position in the international arena. In the era of globalisation, with the growth and development in Sino-Indian relations, the scope and demand of Chinese language experts is increasing every day. The craze for learning Chinese language or what is called in Chinese “中文热” that swept the country and the world in the past few decades is still burning strong. Department of Chinese Studies in Doon University is a step towards keeping in pace with the need of the times and demands of the market. With the economic boom of China and ever so growing trade relations between India and China, the need for Chinese experts is growing. Being the only Chinese language centre in the region, Department of Chinese Studies in Doon University has a tremendous potential of emerging as a leading centre of Chinese language learning in the area.

Mission

The Department of Chinese Studies aims to develop as one of the major centres for Chinese Studies in India. With its strategic location based in the Himalayas and the only centre for Chinese learning in the Himalayan belt, the Department of Chinese Studies aims at catering to the need of the region by producing well qualified language and China experts who are equipped with skills to answer the needs of the market.

The Department of Chinese Studies was among the first three departments to be established in School of Languages and offers a five year Integrated Masters course with focus on Chinese language, Literature, Culture and History. The course is designed to give the students a comprehensive understanding of China and to make them equipped with the language skills so as to nurture them into responsible and efficient resource.

6.4.5. Department of French and Francophone Studies, School of Languages

Vision:

Established in August 2014, the Department of French and Francophone Studies dwells upon the intensive teaching and learning of language, literature, culture and civilisation of France and Francophone nations through a mosaic of workshops, seminars and cultural activities.

Apart from English, French is the only other language to be spoken in all five continents (in around 51 countries). Considered the language of culture, diplomacy and international relations, the knowledge of French opens the door of employment in France and other French speaking countries. Therefore, the Department has a vision to become a nationally and internationally recognised centre of excellence for learning, teaching, and research in French and Francophone studies. Learning French at Doon University will consequently lead to numerous opportunities to work in the following fields: translation, interpretation, international business, technology and engineering, national and international organisations and agencies, tourism and hospitality industry, diplomatic services, French research institutes, teaching, etc. Since the Department of French and Francophone Studies is the only full fledged department in the Himalayan region offering degree courses, it embodies an immense prospect to produce high-calibre professionals in French and Francophone studies, capable of effectively contributing to, and promoting national development, regional integration and international cooperation.

Mission:

At present, the Department offers Bachelor of Arts (hons.) (three years) and Master of Arts (two years) programmes. Along with these programmes, the Department also offers one-year Certificate Course for the students, professionals and general public who aspire to learn French for professional reasons or as a hobby. The Department has incorporated latest methodologies and approaches of teaching and learning French which efficiently enable a learner to meet professional and personal challenges in diverse scenarios. The well-researched and up-to-date curriculum contains core courses on different aspects of language learning (oral, written, comprehension, reading) and cultures of France and Francophone countries. Apart from courses on French and Francophone literatures, philosophy, cinema, theatre and art, the Department also offers number of vocational and professional courses at B.A. and M.A. levels, such as translation and interpretation (literary, scientific, technical, commercial, judicial, conferential, etc), French for tourism and hospitality, commercial French, French for mass media and methodology of teaching French as a foreign language. Besides, the Department has signed a MoU with Université de Liège, Belgium to facilitate students and faculty exchange programme amongst other activities.

6.6 School of Design

VISION

Doon University is only among the very select state Universities in India that has initiated to offer a vocational programme in Design at undergraduate level, leading to a UGC recognized Bachelor in Design (B Des) degree. The School of Design (SoD) will draw upon the wealth of traditional knowledge that has existed in different parts of the country, and combine it with modern design thinking to promote the study and practice of design in a social context, with stress on design methodology and design attitude.

MISSION

It is our belief that the Design education must generate integrated experimental and explorative learning in order to achieve better understanding of creative innovations. The school must provide a flexible framework of student centric learning where the sole objective is to harness the creative potential of each individual and develop an attitude for logical and critical thinking.

DESIGN PEDAGOGY

A multidimensional approach is thus evolved to achieve the required goals by studying and analysing cultural, social and technological development. Ample opportunities are needed to be created by the school to develop each student to his or her full potential in terms of innovative and exploratory thinking, required skills and critical thinking in order to identify the appropriate design solutions in the appropriate cultural context. It is very important to understand the design in relation to the context of society that the student intends to practice. At the same time, interdisciplinary and progressive knowledge of design with the focus on specialization the critical factor to the design education is immensely important.

A sense of professional responsibility/commitment and a balance between 'to do or not to do' is important for each student to develop within the period of four years at the school. This includes professional ethics, work commitment and the responsibility towards society as a critical part of educational curriculum. Thus, design education poses a different kind of challenge to the school / University to impart this kind of education by the method of being extremely sensitive to the needs of the changing times, needs of the industry and most importantly the aspirations of young.

PROGRAMME & STRUCTURE OF EDUCATION

The School of Design offers a four-year Bachelor in Design program consisting of eight semesters. The teaching pedagogy lays emphasis on creative thinking and a critical analysis of the product, and has hands-on approach to shape it. The programme focuses on nurturing the creative aptitudes in each student and develop their ability to evolve in the process of problem solving. Emphasis is given to design education in relation to our eco – system and society that we live in as well as the environment, which we need to preserve. Aim is to turn out design graduates, who are 'Industry ready' and have the necessary skills to be absorbed in different work arenas. Participation of industry professionals and solving industrial problems in the real work situation is the essence of design education at the School of Design.

After a common foundation program, students will be required to pursue a three year specialisation. Currently the School offers Product Design and Graphic Design specialisations. The curricula of specialisation courses are developed on the basis of the market needs. The specialisation will be offered in consultation with the student after an evaluation of performance and aptitude in foundation year.

6.7 School of Physical Sciences

6.7.1 Department of Mathematics

Department of Mathematics in Doon University was started in 2015 as a part of School of Physical Sciences (SoPS). A two-year postgraduate course in Mathematics and five year integrated MSc course was started in year 2015. There are three regular faculty Department of Mathematics all with Ph.D. degrees, to respond to the needs of mathematics students. The focus of the department is to provide excellent education that enables the students to enter various fields of sciences and to make them eligible for wide range of relevant fields. The Department of Mathematics is located in the Composite Laboratory Building.

Mission & Vision of Mathematics Department:

Our mission is to provide students experiences in mathematics that will empower them to succeed in an ever changing society. This is accomplished through our commitment to excellent teaching, a well-designed curriculum, and a supportive environment.

To support our mission, we are committed to professional development, ongoing curriculum assessment and design, effective teaching techniques, and the use of technology to supplement instruction.

Our vision is to provide excellence in education for all students. We will assess and design courses and learning

Programs

Degree Programs

The Mathematics Department has the following degree options:

1. **Master of Science (Mathematics): 02 years Programme.** The Master of Science in Mathematics was started in 2015 on the entrance basis. There are 20 lateral entry seats approved.
2. **Master of Science(Integrated): 05 years Programme**
The MSc (Integrated) program have been designed as per the latest guidelines of UGC by following CBCS system. The core courses are supplemented by a combination of elective course run by the

- department.
3. **PhD – Mathematics**
From the academic session 2016-17 PhD program started in mathematics.

6.7.2 Department of Physics

About the department: The Department of Physics was established in the year 2015 and is an active beehive of high quality teaching programs and competent faculties with diverse research backgrounds that cater to the ever challenging needs of teaching and technical excellence in various areas in physics with globally benchmarked curricula. The department offers undergraduate, post graduate and doctoral programs. A MoU has been signed between the University and Instruments Research & Development Establishment (IRDE), a branch of Defense Research & Development Organization (DRDO) to run the Masters program collaboratively. The curricula of integrated M. Sc. program is based upon UGC's choice based credit system (CBCS) and provides the in-depth study of the subject and the related areas. The foundation of the subject is built through *Core courses* coupled with a choice based specialization of different branches of Physics through *Elective courses*. The department offers its *Generic Elective courses* to other departments in the university as a part of CBCS as well. The department is growing with time with its developing state of the art laboratories for learning through experiments. The M. Sc. in physics with specialization in Optoelectronics offered by Department of Physics, Doon University is a unique program of its kind in the country to the best of our knowledge.

Road Map The department aims to achieve the following in the area of research and education:

- To become a world-class institution for career building through scientific learning in higher education.
- To build foundation for excellence among its students and researchers.

- To provide a strong platform for research in basic and applied sciences.
- To cultivate the sense of pioneering spirit and innovative thinking around disciplinary domain.

6.7.3 Department of Computer Science

Department of Computer Science in Doon University came into existence in the year 2015 as a part of School of Physical Sciences. In pursuit of excellence in teaching and research, the department aims to be recognized as a scientifically and technologically advanced center by imparting quality education, theoretical as well as practical, in the field of Computer Science.

Vision:

Students become innovative leaders in the field of Computer Science and faculty be recognized for their passion for teaching and quality research, thereby establishing a unique identity.

Mission:

- To provide quality education in both theoretical and applied foundations of CS.
- To establish a research center with excellence at par with global standards.

About the Programmes: Currently, the department offers a 5-year Integrated M.Sc. program in Computer Science. During the course of the program, the students will develop deep discipline-specific knowledge as well as the skills required for graduate level employment. Our 5-year integrated programme of M.Sc. (Computer Science) has been designed as per the CBCS (Choice Based Credit System) pattern in close accordance with models prepared by the UGC. A varied range of elective courses supplements the core courses across departments of the university. Interdepartmental credit transfers encourage inter-disciplinary learning. Students have an option of exiting the programme after 3 years with an Honors degree in B.Sc. (Computer Science). Various computational subjects are of industrial relevance and at the same time required at the forefront of pursuing a research career in Computer Science.

IoT Lab in Computer Science Department:

The Internet of Things is the latest big buzz around the globe. It is in demand technology, which is closest to today's lifestyle. It is based on machine-to-machine communication, cloud computing and network of data gathering sensors. The basic motto behind IoT is that it assures that it will make everything from a light bulb to railway stations “smart.”

Keeping up with the global trends, Department of Computer Science established an IoT lab in session 2017-18 to foster innovation by the students. Currently, IoT Lab is catering to students by providing necessary instruments and gadgets like Arduino Uno, Raspberry Pi 3b, RPi camera module, Temperature sensor, Bluetooth and Wi-Fi modules, soldering equipment and various sensors for Arduino and Raspberry Pi.

Students of batch 2016 and 2017 have developed various IoT projects under embedded system course, which helped them to gain insight of the field.

6.7.4 Department of Chemistry

About The Department:

Department of Chemistry was launched in year 2015. First and the only academic programme offered by the Department in this year was integrated M.Sc. in chemistry. Ph.D. in chemistry is the other programme which is also offered by the department nowadays. The curriculum of integrated M. Sc. program is based upon UGC's choice-based credit system (CBCS) and provides the in-depth study of the subject and the related areas. The structure of the curriculum includes different categories of courses viz. *Core courses, Discipline Specific Elective (DSE) courses, Generic courses, Ability Enhancement Compulsory Courses (AECC) and Ability Enhancement Elective Courses*. DSE courses aim at a choice-based specialization within different branches of Chemistry. The department offers its *Generic Elective courses* to the students of other departments in the university as a part of CBCS system. The department is growing with time, and the laboratories including required infrastructure are being established.

Vision:

The Department endeavours to be among nation's premier institutes to educate students to become successful, articulate, skilled and effective problem solvers, who will compete in and contribute to the ever-changing, technology-centered world of the 21st century. To achieve this vision, the department is committed to provide a course of study in the chemical sciences which combines curriculum, scholarship and service/engagement opportunities that are competitive, innovative and intellectually challenging while promoting critical thinking and effective communication.

Mission:

The mission of the department of chemistry is to teach and prepare liberally educated and accomplished chemical science professionals by providing them with quality classroom, lab experiments (research) and service opportunities.

In support of our mission the faculty members strive to:

- Provide high quality academic counselling for all majors.
- Act as mentors to the students through motivating them in the research
- Teach students the value of cross-disciplinary thinking by providing them with educational and research opportunities in the area of chemistry and other related fields.
- Develop innovative and multi-disciplinary curriculum to provide students with a wide range of courses in various areas including Forensic Chemistry, Green Chemistry, Biochemistry, Natural Product Chemistry, Environmental Science, Biophysical Chemistry, Polymer Science, Advanced Instrumentation and Technology.
- Serve as role models to students for safe, ethical and environment friendly practices.
- Encourage students to value diversity and develop a global perspective through international experiences in chemistry.

Research Areas, Infrastructure and Facilities:

Department aims at ensuring the exposure of the students to several exciting areas of research. Such areas include organometallic chemistry, catalysis, solar energy, materials science, nanotechnology, and biomedicine. Research infrastructure including labs are being established by utilizing research grants of all the three faculty members viz. Dr. Arun Kumar, Dr. Charu Dwivedi and Dr. Sushil Kumar. Procurement of some modern and advanced equipments, is under process. Some other instruments will also be procured utilizing RUSA grants in near future.

Doctoral Study: Ph.D.

Department offers a full time Doctor of Philosophy (Ph.D.) program in chemistry. First batch in this program was introduced in academic year (i.e. 2016-2017). Number of seats and admission procedure is in accordance with UGC (Minimum Standards and Procedure for Award of M.PHIL./PH.D. Degrees) Regulations, 2016. Key areas of focus of research in the department at present are:

- Development of molecular and nanocatalysts and exploration of their applications in various chemical transformations.
- Importance of different light activated metal nitrosyl complexes in photodynamic therapy

- Photoactivation of dioxygen molecule using Fe-TPA complexes linked with ruthenium based photosensitizer
- Polymer based drug delivery systems, photocatalysis and applications of nanoparticles in water remediation

List of Pre Ph.D. courses offered by the department:

- Research Methodology
- Molecules and Materials: Designing and Characterization
- Basics of Polymer Chemistry
- Catalysts for Chemical Transformation
- Applications of Macromolecules and Nanomaterials
- Bioinorganic and Organometallic Chemistry
- Seminar
- Statistics and Computer Applications
- Spectroscopic and Spectrometric Methods
- Green Chemistry
- Applied Polymer Science
- Bonding and Reaction Mechanism in Transition Metal Complexes
- Synthetic Strategies and Asymmetric Syntheses

6.8 Centre for Public Policy

The Centre for Public Policy gratefully acknowledges the patronage and guidance provided to this Centre, as an autonomous institution anchored in the School of Social Sciences, by its successive Vice Chancellors Prof. Girijesh Pant (19 Jan, 2009 - 18 Feb, 2012) and Prof. V.K. Jain (5 March 2012 onwards) respectively. While Prof. Pant was responsible for persuading the current occupant of the NTPC Chair Professor to accept the responsibility of steering the Centre, after his departure it was Prof. VK Jain who has taken an equally keen interest in its progress. Both the Vice Chancellors and the Registrar, B.M. Harbola have ensured that minimal time of the Chair is spent in matters administrative and financial which are entirely served through the existing mechanisms of the Registrar's and Finance Controller's offices. Accordingly, the State of Finance, as reproduced in these Reports is as made available by the Office of Finance Controller of the University.

The Centre has been allowed complete autonomy in its academic pursuits and functioning unfettered by the much-maligned red-tape. The NTPC Chair has steered the Centre keeping in mind the Vision that appears at the very outset of these Reports, making Higher Education discharge its social contract both with the larger society and the State.

The Centre also records its deep gratitude to all the Faculty members of the University, PhD Candidates / other Research Fellows and Volunteer - Students for their academic involvement and close engagement with the Centre's various initiatives; the University Administrative Staff for its unstinted co-operation and help and finally the Faculty and staff that has had occasion to be serving the Centre, in whatever capacity. The Centre looks forward to be a key player in the endeavours of the University to become a major Centre of Excellence in many disciplines of Higher Education, Action-Research and related field both in the state of Uttarakhand and the World.

The Centre also renews its request for support of one and all to help it become a Centre of Excellence in the fields of Sustainable Mountain Development & Public Policy as it enters its second phase of internal consolidation and outreach, during the next two years (2015-16 and 2016-17).

Vision

To engage higher education institutions more intensively than before with wider society and contribute to the local and regional development and provide intellectual leadership to society.

Approach Paper Twelfth FY Plan: Chap 10

This is the Fifth Annual Report of the Centre for Public Policy ever since the 12th Executive Council was informed of the decision of the present Chair's acceptance to steer the Centre (26th May, 2011), in an honorary capacity. Previous two published Annual Reports recount the spontaneous evolution of the Centre's various activities, including certain completed sponsored projects, and a conscious decision to pursue an 'action research' approach, as the Chair had professionally been a 'practitioner' and not an academician by choice. Among other things this approach has mainly helped the Centre in nearly finalizing both its areas of main focus, as well as its administrative and work-architecture. Accordingly, its slightly altered reporting format has been followed, which also accommodates its former areas of activities.

In the main, the process followed during the previous four years has helped the Centre both to align its present focus with the Vision it had set itself for, as well as the international, national and sub-national policy frameworks—as would be discovered in subsequent narrative. However, to re-iterate, as the Centre and its Host-University remains anchored in a predominantly mountain state, its policy related endeavours are primarily aimed at to help and assist, the host state of Uttarakhand primarily, and all other 8 North-eastern States and 3 Hilly States—to use the NITI Aayog parlance (Role of NITI Aayog, 30 November, 2015: Consultation with the States). In one sense, this justifies the approach that has been followed so far, and equally, what is now proposed to be done in the ensuing years. It arguably, also makes this Centre as the only Centre which has deliberately designed to assist its host-state in an era when there is no Planning Commission at the Centre and the Centre-State relations are avowedly to be developed on the lines of Co-operative Federalism, to speak the Government of India language and follow the course that has been shared at the First National Consultations, organized by the NITI Aayog, alluded to above.

With some benefit of hind-sight, in its fifth year, the 'action research' approach followed by the Centre could possibly be said to have consisted of the following three components, viz.,

(I) creation of 'space for mountains' in the policy formulation domain; it commenced with the constitution of a Working Group on Mountain Ecosystems and Challenges faced by the People living in the Hilly Areas, towards the very fag-end of the preparatory phase of the preparation of the Twelfth Five Year Plan (2012-17), consequent upon meeting of some MPs from the mountain states with the Deputy Chairman, Planning Commission, Montek Singh Ahluwalia, constitution of such a Working Group, and inclusion of its recommendations in the crafting of the Twelfth Five Year Plan. Efforts of this Working Group later became the inaugural publication of this Centre (A Panning Framework for the Mountain States of India, (Jan, 2012), see About the Foreword by Prof Girijesh Pant, VC, Doon University); this also manifested itself in creation of a 'Mountain Division', in the Nodal Agency of the nodal Ministry for 'mountains' in India, namely the Ministry of Environment & Forests and Climate Change - the GBPIHED, and lately, now 'A Cell for Hilly and North Eastern States', in the newly constituted NITI Aayog (see PPT, Role of NITI Aayog: Consultations with the States; Operationalization of Engagement; 30th November, 2015, Vigyan Bhawan, New Delhi); and a Working Group on North Eastern States and Hill States, on 23rd December, 2015 by NITI Aayog, Government of India.

(ii) providing 'institutional memory' by sharing recommendations that have ever been officially made for sustainable development of mountain regions of India, including follow-up of some of the recent recommendations made by the apex planning bodies of India. This was ensured through sharing of recommendations made by Committee on *Restructuring of Centrally Sponsored Schemes (CSSs)* (BK Chaturvedi Committee, Sep 2011) or *Demise of Planning Commission : implications for Mountain States or Safer and Sustainable Mountains*, at various events e.g. Sustainable Mountain Development Summit III, held at Kohima, Nagaland (25-27 Sep 2013) and Meet of the Mountain States III, New Delhi, 10-11 Dec, 2014, and SMDS IV, held at Itanagar, Arunachal Pradesh, 7-9 October, 2015, respectively, with senior national and international bodies connected with mountain development; or proceedings of national events connected with mountain –development (Indian Mountain Cities and National

Workshop on Mountain Cities; held at Mussoorie, 19-20 Jan, 2014); or compilation of status papers on themes of public importance e.g. on Compensating Mountain States (March, 2014) Demise of Planning Commission (October, 2015). These documents have been widely shared, used by majority of mountain states in their presentations, at various forum, in particular during NITI Aayog Sub Group deliberations and NITI Aayog meetings, are beyond doubt and the latest Working Group Draft Report also provides final evidence that their timely publication and wide distribution, followed by consistent advocacy, has served the desired purpose, and

(iii) triggering 'action by stake-holders' particularly informed individuals, professionals and regional, national and sub-national entities via state governments, NGOs and civil society organizations, though informal, formal and registered bodies in shaping appropriate policy parameters and a more tangible and favourable environment for mountain regions/states of the country has indeed been a most noticeable development in contemporary times, in which the Centre has played a significant and critical part.

Sustained efforts on all these three fronts resulted in the Centre taking up a pro-active role in sensitizing the host-University and the host-Government about the funding opportunities that had been initiated through the second National Mission on Mountain Studies (NMMS, MoEF & CC) through organizing brainstorming sessions and even holding hand-holding sessions with several departments and organizations. While this pro-active action has benefitted both the host University as well as a majority of mountain states, it has also helped the Centre considerably in both crafting of its administrative and work-architecture, manifest in its rubric 'Safer and Sustainable Uttarakhand'. As would be observed this has not only validated the 'action research' approach followed so far but also helped the Centre think-through what it needs to focus on and follow-through. It also has provided the Centre an Advisory Committee to steer its future course, of course suitably augmented and strengthened, as the Centre assumes more responsibilities (communicated to the Competent Authority vide CPP/NTPC/321/DU/2016 Dated 22/01/2016).

7. Doon University Library

About the Library: The Central Library of Doon University plays a vital role in supporting, teaching and learning activities of the University. The Library offers a rich collection of resources in both physical and digital format across a broad spectrum of disciplines studied in the university. Library is committed to helping the academic in their information need and to keep them abreast with latest development of their area of interest. The library is using the latest version of Library Software LibSys for its housekeeping operations and services. Entire library premises are connected with CCTV and Wi-Fi.

Our Vision: The ultimate vision is to equip Library with world class infrastructure and services to support academic and research activities of the University.

Our Mission:

- To be world class knowledge centre in the area of Social Science, Humanities & Science.
- To support the University mission to contribute to society through the pursuit of education, learning & research.
- To provide knowledge resources to meet the information need of the academic community.

Significant development:

Reader Service: In 2018-19, nearly 26067 users visited library for various purposes.

9.3 Placement Cell:

Placement Cell Overview

The PLACEMENT CELL at Doon University was established in the year 2011 with an objective to enable skill development & enhance the employability of students across various programmes offered by the University. The objective of the Placement Cell is to ensure a strong Industry-Academia Interface for necessary inputs in Curriculum Development, Teaching Pedagogy, Industry Projects, Summer Internships and Final Placements.

To ensure a smooth and transparent process for the students as well as companies, some important measures were taken. Firstly, data about employing companies from the internet was searched from various job portals for various programmes being offered by the University. This exercise was done to jot down various prospective employers vis-à-vis programmes offered by the University. Various emails were sent to contact the prospective employers, briefing them about the University profile and various programmes offered by the University. However, the response was bleak but the process of bridging with prospective employers continued with enthusiasm started and today the Placement Cell has a pool of over 25 best employers in the Country.

To encourage employability, there is a strong culture of experiential learning and students supplement their academic learning with practical insights from the corporate world. Placement Cell hosts various workshops on Personality Development and Employability to facilitate a comprehensive learning curve for the students. This is truly reflected in the dominance of our students in the best and the most corporate houses in the country as well in Govt. Sector Exams

Placement Cell Structure

University has a Central Placement Cell which caters to the job requirements of various schools for internships, final placements and any other work project/task concerning employability of students. The Central Placement Cell facilitates various Campus Placement Drives for all Schools and also extends necessary support for pre-placement sessions and necessary process documentation wherever required. Central Placement Cell since inception is being headed by Sh. Shiv Kumar Dadar, Associate Professor, School of Management since incept. Each School has designated one faculty member for the Central Placement Cell for co-ordination and other placement activities.

However, each School also has its own Placement Unit comprising of Faculty Members and a selected few students who work in tandem with Central Placement Cell for various placement related activities. The School's Placement Unit is the primary contact centre for the students of the respective school for all placement related needs.

Placement Process

The Central Placement Cell keep approaching various Companies & Organisations all throughout the year but major thrust starts with July onwards each academic year for final placement of the students. This activity involves sending emails about running batches, students profile and other facilities that University can extend for facilitating placements. Students in the final year are advised to prepare their Resumes/ Curriculum Vitae and keep it ready in soft and hard copy as well. Actual Final Placements starts from November onwards each academic year and goes up till May placing students in various companies and organisations.

In response to requirements from specific schools, Central Placement Cell also facilitates Summer & Winter Internships for students across various Corporates, and NGOs. With respect to School of Management, special sessions are being organised for better Summer Placements and students are well-guided and encouraged to perform well in their Internships to bring pre-placement offers from their concerned organisation.

Summer Placement Process starts from January of every calendar year and goes until May for Management Students only. Students are given request letters from Head of the Department and wherever endorsement/ intervention of the Central Placement Cell is required it is willfully extended to the concerned student.

Central Placement Cell also organises pre-placement talk in case concerned organisation agrees for the same so that students are well versed with culture, growth, perks and opportunities existing within the concerned organisation.
