ABOUT HOST (DOON UNIVERSITY):

Nestled in the verdant Shivalik foothills, Doon University stands as a beacon of academic excellence and research innovation. A unitary and residential institution with a scenic campus and state-of-art infrastructure, it offers a comprehensive range of multi-disciplinary programs across undergraduate, postgraduate, and doctoral levels. Established by the Government of Uttarakhand and recognized by the UGC, the university holds a prestigious NAAC 'A' grade. Recent years have seen significant growth with the addition of new departments, diversifying its offerings and fostering interdisciplinary studies. A strong focus on research and development is underscored by securing substantial grants, exceeding ₹100 crores in the last four years, driving scholarly pursuits and innovation.

ABOUT TRAINING:

This training program, bringing together experts from esteemed institutions like Delhi University, JNU, NEHU, WIHG, CSIR, and IIRS, and focusing on cutting-edge techniques such as Satellite Imagery, UAV-RGB/LiDAR, Total Station/DGPS mapping, Flood Impact Mapping & Simulation, and Geophysical Mapping, holds immense significance for PhD and Postdoc researchers. Such training is crucial for equipping early-career scientists with the advanced geospatial and environmental analysis skills essential for tackling complex research problems in today's world. Mastering these techniques enables researchers to collect, process, and interpret diverse datasets, leading to more robust and innovative findings. Furthermore, exposure to experts from various institutions fosters valuable networking opportunities and broadens their academic perspectives. This comprehensive training not only enhances their research capabilities but also significantly boosts their employability and competitiveness in both academic and industry sectors, preparing them to become leaders in their respective fields.
